## Mom, Dad... do you like me?

I think every parent can relate to the Staples commercial which features a parent merrily shopping, while "it's the most wonderful time of the year" is being played in the background. I think it's a great one... but, careful; don't overdo it.

It's important for our children to feel loved, wanted, and liked. I have heard many a parent say, "I can't wait for you to go back to school", without stopping to think of how these words sit in the mind of their child.

Most parents do loads of things that show their kids how much they love them, but few are the parents that do things that show how much they like them! If you like me, you want to be with me—pretty simple, not so easy. Parenting is tough work, take it on!

## Parents Corner - 101

Back-to-school Settings— September is almost here—back to school sales and ads are everywhere! My Internet Doorman subscribers can benefit from custom Internet Access **ON/OFF** times.

By contacting your filter specialist at 800-551-8517 you can create a custom time schedule for internet access! For example, on school nights Internet Access can be set to go **OFF** at 8,9,10, or whatever time you deem appropriate! During **OFF** times the computer cannot be used to access the internet—no IMing till all hours of the morning, or falling asleep while browsing MySpace, etc. Your kids will be well rested and you might even see an improvement in their grades and performance in school!

## Editorial

MEET CYBER-BULLY — the days of sharing a secret or contained gossip are gone; secrets, gossip, pictures and video spread like wildfire! Today, some kids are using the internet to ruin reputations, create smear campaigns, or just outright torture a fellow rival or classmate. Recent commercials reinforce a parent's right to lean over their child/teens shoulder and ask "who are you chatting with... what are you chatting about?" See this month's headline story on Cyber-Bully, it can get pretty serious, even criminal. Remember— your kids need you now more than ever!
