Back to School Blues... or Warning Signs?

As your child's first weeks of school come to an end it's important to evaluate how he/she/they are doing emotionally and socially. Are they complaining about going to school? Have they made frequent visits to the nurse? Do they seem happy?

A new school year can be extremely stressful; new teacher, new classmates, loss of old class-buddies, and the struggle to fit in all over again can cause havoc in our youngsters and teenagers lives. Oh, yes, don't forget the cyber-bully from last months' newsletter! As parents, we cannot presume it's just "back to school blues", set aside a night to talk about how they are adjusting to the new grade, have they made new friends, etc. Show them you care, reassure them, and stay connected.
